## 12. Terms and conditions

Sanlam Group is a full member of the Association for Savings and Investment SA (ASISA).

### 12.1 About unit trusts

- When you invest in a unit trust (also called a collective investment scheme), your money is pooled with the money of other investors. This pool of money is used to buy a portfolio of assets, such as shares (equities), bonds or listed property. As an investor, the value of the units you own is calculated by taking the number of units you own and multiplying them by the latest ruling price per unit. Forward pricing is used. Details of what each fund invests in, as well as its risk profile, are specified in the Minimum Disclosure Documents (fund fact sheets).
- The price per unit (excluding money-market type funds) goes up and down according to the value of the underlying assets in the relevant portfolio. Neither your capital nor the return of your investment is guaranteed for any unit trust fund investment. For information on unit trusts and how they work, along with our full range of funds and the relevant Minimum Disclosure Documents (fund fact sheets), please visit our website at [www.sanlamunittrusts.co.za](http://www.sanlamunittrusts.co.za) or alternatively you can call us on 0860 100 266.
- When you complete this form, you apply to buy units in the funds of your choice in line with the Trust Deed and mandate of the relevant funds. The Minimum Disclosure Documents (fund fact sheets) explain how each fund invests and what applicable fees will be charged.
- Unit trusts are generally medium to long-term investments. Past performance is not necessarily a guide to future performance. Unit trusts are traded at ruling prices and may engage in borrowing and scrip lending. Unit trust prices are calculated on a net asset value basis, which is the total value of all assets in the portfolio, including any income accrual, less any permissible deductions from the portfolio and divided by the units in the portfolio.
- For money market funds, the price of each participatory interest is aimed at a constant value. While a constant price is maintained, the investment capital is not guaranteed. A money market portfolio and short-term debt portfolio is not a bank deposit. The total return of the investment is primarily made up of interest received. The return may also include any gain or loss made on any particular instrument. In most cases this will merely have the effect of increasing or decreasing the daily yield, but in the case of abnormal losses it can have the effect of reducing the capital value of the portfolio. The daily yield is calculated by taking the daily income earned from dividends and interest, subtracting the expenses at a fund level, and dividing it by the current value of all the assets held in the fund. Excessive withdrawals from the portfolio may place the portfolio under liquidity pressures, and in such circumstances, a process of ring-fencing the withdrawal instructions, and managed pay-outs over time, may follow.
- For Sanlam Alternative Income funds, the price of each participatory interest is aimed at a constant value. While a constant price is maintained, the investment capital is not guaranteed. The total return of the Sanlam Alternative Income Fund investment is primarily made up of interest and dividends. The returns may also include any gain or loss made on any particular instrument. In most cases this will merely have the effect of increasing or decreasing the daily yield. The daily yield is calculated by taking the daily income earned from dividends and interest, subtracting the expenses at a fund level, and dividing it by the current value of all the assets held in the fund. In an extreme case it can reduce the capital value of the portfolio.
- A fund of funds is a portfolio that invests in portfolios of collective investment schemes, which levy their own charges. This could result in a higher fee structure for the fund of funds.
- A feeder fund is a portfolio that, apart from assets in liquid form, consists solely of participatory interests in a single portfolio of a collective investment scheme, which also levies its own charges, which could result in a higher fee structure.
- Sanlam Collective Investments takes full legal responsibility for the co-branded portfolios (e.g. Graviton funds).
- Portfolios that invest in international investments, or investments in foreign securities, could be accompanied by additional risks as well as potential limitations on the availability of market information.
- Income payment(s) will only be paid out to a client's bank account if the investment transactions (e.g. debit orders and deposits) used to purchase units have been cleared by the bankers on the income reinvestment date. If the units have not cleared, income payment(s) will automatically be reinvested.

### 12.2 Fees and charges

- A schedule of fees and charges and maximum commissions is available from the Minimum Disclosure Documents (fund fact sheets):
  - The following charges are levied against the portfolio: brokerage, auditors' fees, performance fees, service fees, applicable taxes, custodian fees, bank charges, trustees' fees and trailer fees (trailer commission is paid by Sanlam to financial advisers on a monthly basis; it forms part of the annual service charge, which is a fixed percentage per annum that is calculated and deducted daily from the accrued income in the portfolio).
  - These fees are charged to the client: Sanlam manager's fees as well as broker advice fees.
- Commission and incentives may be paid and if so, will be included in the overall costs.
- The fund manager may borrow up to 10% of the portfolio to bridge insufficient liquidity.
- Obtain a personalised cost estimate before investing by visiting [www.sanlamunittrustsmdd.co.za](http://www.sanlamunittrustsmdd.co.za) and using our Effective Annual Cost (EAC) calculator. Alternatively, contact your relationship manager or phone us at 0860 100 266
- Monthly debit orders will automatically be cancelled if funds are returned from the bank after 3 consecutive occasions. If a debit order or direct debit is returned by the bank due to insufficient funds being available or for any other reason, the units purchased for that transaction will be reversed (at no cost to the client) and the client's unit trust account will be debited with the units allocated.
- The client will be liable for any bank charges incurred as a result of a direct debit or monthly debit order being rejected by the bank.

### 12.3 Transactions cut-off times

- Please make sure you send us your completed instruction (including supporting documents) before the transaction cut-off time. The SA business day transaction cut-off times for our funds are:
  - 11:00 for Sanlam Alternative Income Funds
  - 13:00 for money market funds and,
  - 15:00 for all other funds.
- We can only process your instruction once we have received the correct and accurately completed form and the required supporting documents. If an instruction is issued incorrectly, is unclear, incomplete, or if the supporting documents are not received by the cut-off time, the processing of the transaction will be delayed.
- Your transaction will be priced using the ruling price of the fund for the day the transaction is processed i.e. the day we receive all of the required information. Any loss will be for the investor's account.
- Any interest earned on:
  - money deposited for investment in a fund after the specified cut-off time,
  - money deposited on a non-business day (i.e public holidays, Saturdays and Sundays)
  - incorrect deposits or,
  - deposits for applications with outstanding requirements, will not be paid to the client as we are unable to transfer the money in the fund(s) account.
- If a debit order collection date falls on a non-business day, we will collect it on the first available business day thereafter.

### 12.4 Conflict of interest

All actual and potential Conflicts of Interest are managed, reported and disclosed in line with the Managers Conflicts of Interest and Outsourcing Policy which is available on request, or on the Sanlam website [www.sanlamunitrusts.co.za](http://www.sanlamunitrusts.co.za)

### 12.5 Ownership, information security and instructions

- The legal owner of the investment is the person in whose name the investment is registered, regardless of who the payer is.
- We will only release information to, and act on instructions from, the investor, the authorised signatory or the appointed financial intermediary.
- We can only process your instructions once we have received the correct and accurately completed form and required supporting documents. If an instruction is issued incorrectly, is unclear, incomplete, or if the supporting documents are not received by the cut-off time, the transaction may be delayed. Any loss will be for the investors' account.
- We permit ring fencing for large withdrawals in terms of Notice 573 of the Collective Investment Schemes Act. Ring fencing is the separation of assets and the delayed sale of units in a unit trust fund. A large sale of units in a unit trust fund, above certain thresholds, may cause ring fencing. This ensures that the sale of a large number of units will not force us to sell the underlying investments at a price in the market which could have a negative impact on other investors. If your sell instruction is affected by this ring fencing, we will contact you to discuss the process, where applicable.

### 12.6 Unclaimed assets and how they affect you

- As a member of the Association for Savings and Investment SA (ASISA), we follow ASISA's Unclaimed Assets standard. An unclaimed asset is any unit trust investment on which there have been no transactions for ten years, or in the case of a deceased estate, more than three years have passed since we have received the notice of death. Our policy is to continue reinvesting all income distributions (interest) and redemption payments until the unit trust is sold, regardless of the time frame.
- According to ASISA's Unclaimed Assets standard, we follow a process of tracing investors or beneficiaries on any unclaimed assets. Any reasonable administrative and costs incurred to trace the investor may be recovered from the value of the portfolio, thereby reducing the value of your investment. Tracing will cease where the value of the unit trust investment is less than R1000 and the costs of tracing exceeds the benefit of tracing. More information on the ASISA Standard on Unclaimed Assets and the processes is available on [www.asisa.org.za](http://www.asisa.org.za) or from our client service centre on 0860 100 266.
- Please note that to prevent your investment becoming an unclaimed asset, it is your responsibility to inform us of any change in your personal information.

### 12.7 Update your personal details

It is your responsibility to keep us informed of any changes in your banking details, personal information or current identification information (e.g. change of address, change of surname and contact details). If any of your details have changed, you will need to complete an Investor Details Update form available from [www.sanlamunitrusts.co.za](http://www.sanlamunitrusts.co.za)

### 12.8 Making changes to your investment

Unit trusts are a flexible investment option, which means that you can make changes to your investment as your personal circumstances change. This means you can change your fund selection, sell some or all of your units, and make additional investments. As changes to your investment could impact your original investment goals, please speak to your financial adviser or broker.

### Disclaimer

Sanlam Group is a full member of the Association for Savings and Investment SA. Collective investment schemes are generally medium to long term investments. Please note that past performances are not necessarily an accurate determination of future performances, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager, Sanlam Collective Investments (RF) Pty Ltd, a registered and approved Manager in Collective Investment Schemes in Securities. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Actual investment performance of the portfolio and the investor will differ depending on the initial fees applicable, the actual investment date, and the date of reinvestment of income as well as dividend withholding tax. Forward pricing is used. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The performance of the portfolio depends on the underlying assets and variable market factors. Performance is based on NAV to NAV calculations with income reinvestments done on the exdiv date. Lump sum investment performances are quoted. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result in a higher fee structure for our portfolio. All the portfolio options presented are approved collective investment schemes in terms of Collective Investment Schemes Control Act, No 45 of 2002 ("CISCA"). International investments or investments in foreign securities could be accompanied by additional risks as well as potential limitations on the availability of market information. The Manager has the right to close any portfolios to new investors to manage them more efficiently in accordance with their mandates. The portfolio management of all the portfolios is outsourced to financial services providers authorized in terms of the Financial Advisory and Intermediary Services Act, 2002. Standard Bank of South Africa Ltd is the appointed trustee of the Sanlam Collective Investments Scheme.

## Dividends Tax (exemption)

DTD(EX)

### Declaration and undertaking to be made by the beneficial owner of a dividend (exemption from tax).

Dividends tax is a 20% tax (subject to change) charged to unitholders when a dividend is paid. Dividends tax is withheld by either the company paying the dividend or the withholding agent (such as Sanlam Collective Investments) who pays this over to SARS on your behalf. It applies to all dividends paid by South African resident companies as well as non-resident companies listed on the Johannesburg Stock Exchange (JSE). Non-residents may qualify either for a reduced rate of tax depending on their country of residence and their circumstances, or they may be exempt.

Send the completed form to [UTinstructions@sanlaminvestmentssupport.com](mailto:UTinstructions@sanlaminvestmentssupport.com) or fax it to 0860 724 467.

- In order to qualify for an exemption, this declaration and written undertaking should be submitted to Sanlam Collective Investments within the period required by the latter (provided it is before payment of an affected dividend) - failure to do so will result in the full 20% dividends tax being withheld / payable.
