

Granate BCI Active Bond Fund (B)

Managed by Granate Asset Management (Pty) Ltd – Authorised FSP 46189

30 June 2022

Investment objective

The Granate BCI Active Bond Fund aims to provide investors with a high income return.

Investment policy

The fund is an actively managed income portfolio that invests mainly in nominal and inflation-linked government bonds and corporate bonds. The portfolio invests predominantly in domestic bonds. The investments normally to be included in the portfolio will comprise a combination of assets in liquid form and a combination of nominal, inflation-linked and corporate bonds as well as interest-bearing securities, including loan stock, debentures, debenture bonds, money market instruments, corporate debt and non-equity securities. The portfolio may also invest in participatory interests or any other form of participation in portfolios of collective investment schemes. The portfolio may from time to time invest in listed and unlisted financial instruments.

Risk profile

Low - moderate risk

Where the asset allocation contained in this MDD reflects offshore and equity exposure, the portfolio is exposed to currency and equity risks. The portfolio is exposed to default and interest rate risks. Therefore, it is suitable for medium-term investment horizons. The expected potential long-term investment returns are lower but less volatile over the medium to long term than higher-risk portfolios.

Information and disclosures
Risks

Certain investments - including those involving futures, options, equity swaps, and other derivatives - may give rise to substantial risk and might not be suitable for all investors. Where foreign securities are included in the portfolio there may be additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information.

Total expense ratio (TER)

Please note: a higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs. Transaction costs are necessary for administering the fund and impact fund returns. The portfolio Transaction Cost (TC) should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of fund, the investment decisions of the investment manager and the TER. The prior year (PY) TER and TC calculations are based on the portfolio's direct costs for the financial year ended 30 June 2021, while the ratio and cost calculations are based on the most recent published figures, being 31 March 2022. All TER data percentages include VAT.

Effective annual cost

Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost (EAC). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator, please visit our website at www.bcis.co.za. BCI calculates the EAC as per the ASISA Standard for a period of three years up until the most recent TER reporting period.

Monthly fixed admin fee

R15 ex. VAT which will apply to all direct investor accounts with balances of less than R100 000 at month end, unless an investor transacts online, in which case no such fee will be levied.

Total expense ratio (TER)	Transaction cost (TC)	Total investment charge (TER + TC)

of the value of the fund was incurred as expenses relating to the administration of the fund.	of the value of the fund was incurred as costs relating to the buying and selling of the assets underlying the fund.	of the value of the fund was incurred as costs relating to the investment of the fund.

FAIS conflict of interest disclosure

Please note that your financial adviser may be a related party to the co-naming partner and/or BCI. It is your financial adviser's responsibility to disclose all fees he/she receives from any related party. The portfolio's TER includes all fees paid by the portfolio to BCI, the trustees, the auditors, banks, the co-naming partner, underlying portfolios, and any other investment consultants/managers as well as distribution fees and linked investment service provider (LISP) rebates, if applicable. The portfolio's performance numbers are calculated net of the TER expenses. The investment manager earns a portion of the service charge and performance fees where applicable. In some instances portfolios invest in other portfolios which form part of the BCI Scheme. These investments will be detailed in this document as applicable.
